

**THE UNIVERSITY OF HONG KONG
FACULTY OF BUSINESS AND ECONOMICS**

MSBA7005 Business Analytics Capstone

GENERAL INFORMATION
Instructor: Prof. Zhenhui Jack Jiang Email: jiangz@hku.hk Office: KKL 804 Phone: 3917 8351 Consultation times: By appointment Teaching Assistant: TBC Pre-requisites: MSBA Core Courses Course Website: Moodle
COURSE DESCRIPTION
This course enables students to integrate and apply the knowledge and techniques they have learned in previous courses to solve real-world problems. It focuses on technology-driven business models and emerging trends in innovation strategies. Through a hands-on project, students will identify innovation opportunities, develop business models, and apply appropriate AI technologies. In the process, they will develop familiarity with technological tools, analytics methods, innovation strategies, and relevant managerial skills.
COURSE OBJECTIVES
This course has the following objectives: 1. Understand basic knowledge on digital innovation; 2. Develop ability to evaluate different types of digital business models; 3. Be able to design for business innovations by leveraging emerging technologies; 4. Understand the importance of eco-system in technology innovation design.
PROGRAMME LEARNING OUTCOMES
PLO1: Acquisition and internalization of knowledge of the programme discipline PLO2: Application and integration of knowledge PLO3: Inculcating professionalism and leadership PLO4: Developing global outlook PLO5: Mastering communication skills

COURSE LEARNING OUTCOMES			
Course Learning Outcomes			Aligned Programme Learning Outcomes
CLO1: Understand emerging data analytic concepts and methods, in particular tree induction			PLO1, 2, 3, 4, 5
CLO2: Understand the role of IT in a business competitive environment and how IT transforms industries, markets, and social structures			PLO1, 2, 3, 4, 5
CLO3: Be able to develop a competitive IT strategy through which firms can gain and hold advantage in market competition.			PLO1, 2, 3, 4, 5
CLO4: Understand the business and social issues about cryptocurrency and information privacy			PLO1, 2, 3, 4, 5
COURSE TEACHING AND LEARNING ACTIVITIES			
Course Teaching and Learning Activities		Expected contact hour	Study Load (% of study)
T&L1. Lectures and Project Reviews		30	25%
T&L2. Group projects		60	25%
T&L3. Assignments & Tutorials		10	25%
T&L4. Lecture preparation & Self-study		30	25%
Total		130	100%
Assessment Methods	Brief Description (Optional)	Weight	Aligned Course Learning Outcomes
A1. participation		25%	CLO1, 2, 3, 4
A2. Assignments/Quizzes		15%	CLO1, 2, 3, 4
A3. Projects		60%	CLO1, 2, 3, 4
	Total	100%	
STANDARDS FOR ASSESSMENT			
Course Grade Descriptors			
A+, A, A-	•Demonstrate a strong understanding of all relevant knowledge •Handling questions professionally •High participation in discussions •Present arguments that have an element of originality •Achieve a standard of excellent performance in the exams with very accurate computation and very good analytical and problem solving skills •Excellent performance in assignments		

B+, B, B-	• Demonstrate a good understanding of all relevant knowledge • Handling questions in a logical way • Good participation in discussions • Present arguments that go beyond the lecture and textbook • Achieve a standard of good performance in the exams with accurate computation and good analytical and problem solving skills • Good performance in assignments
C+, C, C-	• Demonstrate a basic understanding of the concepts involved • Fairly address questions as set • Some participation in discussions • Present arguments in a well-structure manner • Meet a standard of acceptable performance in the exams with reasonably accurate computation and acceptable analytical and problem solving skills • Acceptable performance in assignments
D+, D	• Demonstrate a minimum understanding of the concepts involved • Barely address questions as set • Minimal or no participation in discussions • Present arguments in a marginally acceptable manner • Meet a standard of marginally acceptable performance in the exams with some errors in computation and barely adequate analytical and problem solving skills • Marginally acceptable performance in assignments
F	• Demonstrate a poor understanding of the concepts involved • Unable or unwilling to handle questions • Minimal or no participation in discussions • Present arguments poorly • Fail to meet a standard of passing the exams with major errors in computation and inadequate analytical and problem solving skills • Poorly performance in assignments
Assessment Rubrics for Participation	
A+, A, A-	• High participation in discussions • Always attend in-class discussions • Demonstrate a strong understanding of all relevant knowledge • Handling questions professionally • Present arguments that have an element of originality • Respect others and follow the class rules (no chatting and do not use cell phone)
B+, B, B-	• Good participation in discussions • Often attend in-class discussions • Demonstrate a good understanding of all relevant knowledge • Handling questions in a logical way • Present arguments that go beyond the lecture and textbook • Respect others and follow the class rules (no chatting and do not use cell phone)
C+, C, C-	• Some participation in discussions • Sometimes attend in-class discussions • Demonstrate a basic understanding of the concepts involved • Fairly address questions as set • Present arguments in a well-structure manner • Respect others and follow the class rules (no chatting and do not use cell phone)
D+, D	• Minimal or no participation in discussions • Rarely attend in-class discussions • Demonstrate a minimum understanding of the concepts involved

	•Barely address questions as set •Present arguments in a marginally acceptable manner •Respect others and follow the class rules (no chatting and do not use cell phone)
F	•Minimal or no participation in discussions •Almost never attend in-class discussions •Demonstrate a poor understanding of the concepts involved •Unable or unwilling to handle questions •Present arguments poorly •Behave poorly in class (often chatting with others, using cell phones, or being late)
Assessment Rubrics for Assignments/Quizzes and Projects	
A+, A, A-	•Demonstrate a strong understanding of all relevant knowledge •Present arguments that have an element of originality •Achieve a standard of excellent performance in the assessments with very accurate computation and very good analytical and problem solving skills
B+, B, B-	•Demonstrate a good understanding of all relevant knowledge •Present arguments that go beyond the lecture and textbook •Achieve a standard of good performance in the assessments with accurate computation and good analytical and problem solving skills
C+, C, C-	•Demonstrate a basic understanding of the concepts involved •Present arguments in a well-structure manner •Meet a standard of acceptable performance in the assessments with reasonably accurate computation and acceptable analytical and problem solving skills
D+, D	•Demonstrate a minimum understanding of the concepts involved •Present arguments in a marginally acceptable manner •Meet a standard of marginally acceptable performance in the assessments with some errors in computation and barely adequate analytical and problem solving skills
F	•Demonstrate a poor understanding of the concepts involved •Present arguments poorly •Fail to meet a standard of passing the assessments with major errors in computation and inadequate analytical and problem solving skills

COURSE CONTENT AND TENTATIVE TEACHING SCHEDULE	
Class Date	Content
Session 1	IT Strategy and Business Models
Session 2	Platform Competition
Session 3	Cryptocurrency
Session 4	Generative AI
Session 5	Metaverse: Opportunities and Challenges
Session 6	Project Overview and Consultation
Session 7	Initial Business Proposal Presentation
Session 8	System Prototype/Design Meeting
Session 9	Project Review and Consultation
Session 10	Project Review and Report
REQUIRED/RECOMMENDED READINGS & ONLINE MATERIALS (e.g. journals, textbooks, website addresses etc.)	
To be announced on Moodle.	
MEANS/PROCESSES FOR STUDENT FEEDBACK ON COURSE	
x conducting mid-term survey in additional to SETL around the end of the semester ○ Online response via Moodle site ○ Others: _____ (please specify)	
COURSE POLICY (e.g. plagiarism, academic honesty, attendance, etc.)	
An orderly learning environment is extremely important for this course. Disruptive behaviors are absolutely unacceptable. Academic dishonesty includes cheating, plagiarism, unauthorized collaboration, falsifying academic records, and any act designed to avoid participating honestly in the learning process. Any such dishonesty will result in an F grade.	
ADDITIONAL COURSE INFORMATION (e.g. e-learning platforms & materials, penalty for late assignments, etc.)	
Assignments will be submitted in class before the lectures. No late assignment will be accepted. Lecture notes and self-learning materials will be uploaded on Moodle. Good questions and discussions on Moodle will be awarded participation grades.
